## **INFORMATION NECESSARY WHEN APPLYING FOR A RESIDENTIAL ACCESSORY BUILDING PERMIT**

1. Permit application completed and signed.
2. Two sets of detailed building plans or blueprints. Pole buildings over 2,000 square feet require engineered signed plans.
3. Two copies of the residential survey or site plan indicating the following: Distances from the property lines, buildings on the same property, driveway location, septic system and well locations, lot size and any wetlands, rivers, lakes or easements. Site plan must be approved by the Building Inspector. If the property lines cannot be determined, a survey will be required.
4. The building location must be staked for the site inspection/footing inspection.
5. Any additional driveways from a city, county, or state road will need a permit. For all driveways on State or County road; you will need to contact the State of Minnesota or Anoka County and receive a driveway permit before applying for a building permit.
6. Structures shall not be located in drainage and utility easements.
7. Detached Accessory structures shall comply with the following:
  - a. Shall incorporate a finished design and color scheme that is coordinated and compatible with the color and design of the principal structure;
  - b. Shall include complete eave and corner trim elements;
  - c. Shall include a minimum of two different architectural features on the front façade; architectural features may include items such as windows, entry doors, or material/color variations; and
  - d. Shall include a minimum combination of 2 architectural and/or landscape features along any sidewall greater than 10 feet in height and any sidewall directly adjacent to and visible from a public right-of-way.
8. The septic system location must be fenced off before a permit will be issued.
9. Copy of the builder's license (unless homeowner is doing the project).
10. If other accessory buildings are on the property, give total square feet of existing accessory buildings.

**PERMIT FEE IS BASED ON VALUATION:** SHALL BE DETERMINED BY THE BUILDING INSPECTOR DURING PLAN REVIEW.

**SEPTIC SYSTEMS:** Septic systems may need to be upgraded before a permit is issued. If you have any questions, please contact the Building Department.

# DRIVEWAY ACCESS AND STANDARDS

## APPENDIX A (ZONING), SECTION 10, NUMBER 15

### **A. Access requirements.**

- 1) Properties in the R1 and R2 districts are allowed one access point from a public street.
- 2) Properties in the RR and A districts are allowed two access points from a public street; however, properties located on municipal state aid streets, major thoroughfares, and major streets are allowed one access point from a public street.

### **B. Surface and drainage.**

- 1) Off-street parking areas and driveways in the R-1, R-2, B-1, B-2, B-3, I, and conditional uses in the RR districts shall be constructed of a **bituminous or concrete surface**.
- 2) In all residential zoning districts, driveways located on an improved street require a **bituminous or concrete driveway** extending from the street a minimum of 75 feet or to the garage apron, whichever is less. Driveway width shall be a minimum of 12 feet wide and cannot exceed 24 feet in width at the right-of-way. A turn-around, located entirely on a residential lot, will be required for driveways that directly access a street with a posted speed limit greater than 45 miles per hour.
- 3) Parking spaces for heavy equipment that would damage bituminous or concrete surfaces are exempt from the paving requirement.
- 4) In all residential districts, driveways created on an unimproved street after the adoption of [ordinance 28, second series, adopted Dec. 21, 2010] are required to meet the paving requirements of this section no later than one year after subsequent improvements of the street are completed, with either a **bituminous and/or concrete surface**.

# WHAT IS A BITUMINOUS SURFACE?

**Bitumen** is a type of paving that cannot be loose, normally some type of asphalt. It is a black viscous mixture of hydrocarbons obtained naturally or as a residue from petroleum distillation. We will accept:

## Concrete

## Asphalt

## Paving

## Recycled Blacktop

We do not accept crushed rock or anything that is loose. The material must stick together.
